## **Independent Auditors' Report**

To the Board of Directors  
NOVA of Virginia Aquatics, Inc.  
Henrico, Virginia

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of NOVA of Virginia Aquatics, Inc. (a nonprofit organization) which comprise the statement of financial position as of August 31, 2014, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of NOVA of Virginia Aquatics, Inc. as of August 31, 2014, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Correction of Error***

As discussed in Note 10 to the financial statements, certain errors were discovered by management which resulted in an overstatement of previously reported accounts receivables and revenues and understatement of previously reported deferred revenues as of August 31, 2013. Our opinion is not modified with respect to this matter.

# *NOVA of Virginia Aquatics, Inc.*

## *Notes to Financial Statements*

---

August 31, 2014

---

### 1. Organization and Nature of Activities

*NOVA of Virginia Aquatics, Inc.* (NOVA) is a not-for-profit corporation in Richmond, Virginia whose purpose is to provide structured aquatic training for young people in order to develop their swimming skills to their fullest potential and to provide health and fitness opportunities for adults and senior citizens to allow them to lead healthy and productive lives.

### 2. Summary of Significant Accounting Policies

#### **Basis of Presentation**

The financial statements of NOVA have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

#### **Class of Net Assets**

NOVA is required to report information regarding its financial position and activities according to three classes of net assets as follows:

**Unrestricted** amounts are those currently available at the discretion of NOVA for use in NOVA's operations and those resources invested in property or equipment.

**Temporarily restricted** amounts are those which are stipulated by donors for specific operating purposes. When a donor restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Restricted revenue whose restrictions are met in the same year is reflected as unrestricted revenue. NOVA has no temporarily restricted net assets.

**Permanently restricted** amounts are restricted to investments in perpetuity, the income from which is expendable in accordance with the conditions of each specific donation. NOVA has no permanently restricted net assets.

All contributions are considered available for unrestricted use, unless specifically restricted by the donor or subject to other legal restrictions.

#### **Cash Equivalents**

Cash equivalents consist of highly liquid investments with an initial maturity of three months or less. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

## **Accounts Receivable**

Accounts receivable are the amounts due from families for registration, swimming membership, and state and federal dues charged for the swim season which corresponds to NOVA's fiscal year. Accounts receivable are reported net of the estimated uncollectible accounts. Accounts are reviewed periodically and those deemed uncollectible are written off against the allowance account. Management has established an allowance of \$9,700 at August 31, 2014, based on experience and receivables collection history.

## **Inventories**

Inventories of swim apparel and supplies are valued at the lower of cost or market. Cost is determined on a first-in, first-out method and market is based on the net realizable value.

## **Property and Equipment**

Acquisitions of property and equipment are recorded at cost. Improvements and replacements of property and equipment are capitalized. Maintenance and repairs that do not improve or extend the lives of property and equipment are charged to expense as incurred. When assets are sold or retired, their cost and related accumulated depreciation are removed from the accounts and any gain or loss is reported in current year operations. Depreciation is based on the estimated useful lives as follows and is computed using the straight-line method.

|                                   |             |
|-----------------------------------|-------------|
| Building and improvements         | 39 years    |
| Site improvements                 | 15 years    |
| Equipment, furniture and fixtures | 5 - 7 years |

## **Derivatives and Hedging Activities**

NOVA utilizes an interest rate swap contract to reduce interest rate risk which is accounted for in accordance with accounting standards. The fair value of the contract is recorded on the statement of financial position and changes in the fair value of the contract are recorded in the statement of activities. NOVA does not hold or issue derivative financial instruments for trading purposes.

## **Revenue Recognition**

Competitive fee revenue represents the estimated net realizable amounts from families for registration and state and federal dues charged for the swim season which corresponds to NOVA's fiscal year. Registration and fees collected for the following swim season are deferred and reflected as deferred revenue. When the following season begins, these items are transferred to the appropriate revenue accounts.

Income for current activities, meets, lessons, rentals and clinics is recognized in the fiscal year when the activity is completed. Revenues collected in a period prior to when such revenues relate are reported as deferred revenues.

Numerous volunteers have donated significant amounts of time to NOVA for its program services. Those donated services have not been reflected in the accompanying financial statements because they did not meet the criteria for recognition.

## **Concentration of Credit Risk**

Financial instruments which subject NOVA to concentration of credit risk, consist principally of cash held in checking and money market accounts. At times, NOVA may have cash and cash equivalents at financial institutions in excess of FDIC insured limits. At August 31, 2014, cash deposits exceeded FDIC limits by \$810,205. NOVA maintains its cash accounts with high credit quality financial institutions.

## **Advertising Costs**

Advertising costs are expensed as incurred and are reported as marketing expense on the statement of activities.

## **Presentation of Sales Tax**

NOVA's swim shop sales are subject to sales tax imposed by various jurisdictions. NOVA collects that sales tax from customers and remits it to the applicable jurisdiction. NOVA's accounting policy is to exclude the tax collected and remitted from revenues and cost of sales.

## **Income Taxes**

NOVA is exempt from income taxes under Sections 501(c)(3) of the Internal Revenue Code and under the tax statutes of the Commonwealth of Virginia; accordingly, the accompanying financial statements do not reflect a provision or liability for federal and state income taxes.

There are certain activities conducted by NOVA that are considered unrelated business activities which are not exempt from federal and state income tax. NOVA files timely federal and state returns for these activities and makes the necessary tax payments, if applicable. NOVA has determined that there are no material unrecognized tax benefits or obligations as of August 31, 2014. Fiscal years ending on or after August 31, 2011 remain subject to examination by federal and state tax authorities.

## **Compensated Absences**

Employees of NOVA are entitled to paid vacation, paid sick days, and personal days off, depending on job classification, length of service, and other factors. It is impracticable to estimate the amount of compensation for future absences, and accordingly, no liability has been recorded in the accompanying financial statements. NOVA's policy is to recognize the costs of compensated absences when actually paid to employees.

## **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Subsequent Events**

In preparing these financial statements, NOVA has evaluated events and transactions for potential recognition or disclosure through June 24, 2015, the date the financial statements were available to be issued.

### 3. Fair Value Measurements

Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that NOVA has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

*Interest rate swap agreements* – Value determined based on an estimation of the net present value of the fixed and floating components of the interest rate swap. NOVA does not believe the fair value of these arrangements differ significantly from the amounts that could be realized upon settlement or maturity. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although NOVA believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, NOVA's assets and liabilities at fair value as of August 31, 2014:

|                              | Assets (Liabilities) at Fair Value at August 31, 2014 |             |         |             |
|------------------------------|---|-------------|---------|-------------|
|                              | Level 1   | Level 2     | Level 3 | Total       |
| Interest rate swap agreement | \$ -  | \$ (48,215) | \$ -    | \$ (48,215) |

#### 4. Property and Equipment

Major classes of property and equipment consist of the following at August 31, 2014:

|                                 |    |                    |
|---------------------------------|----|--------------------|
| Facility building               | \$ | 4,672,454          |
| Site improvements               |    | 952,341            |
| Facility equipment              |    | 239,780            |
| Computer equipment              |    | 34,371             |
| Furniture and fixtures          |    | 18,406             |
| Construction in process         |    | 3,400              |
|                                 |    | <u>5,920,752</u>   |
| Less – accumulated depreciation |    | <u>(2,117,465)</u> |
|                                 | \$ | <u>3,803,287</u>   |

#### 5. Long-Term Debt

NOVA has a promissory note with a bank dated September 30, 2011 for a principal amount of \$2,894,694. The term of the note is 5 years with all unpaid principal due on October 1, 2016. Payments of principal and interest are due on the first of each month. Interest is charged at one-month LIBOR plus 3% (3.18% at August 31, 2014). The loan is collateralized by the building, building improvements, site improvements, and personal property.

Maturities under the promissory note are as follows:

|      |                     |
|------|---------------------|
| 2015 | 157,872             |
| 2016 | 164,962             |
| 2017 | <u>2,160,026</u>    |
|      | <u>\$ 2,482,860</u> |

#### 6. Interest Rate Swap Agreement

NOVA entered into an interest rate swap agreement to reduce the potential impact of increases in the variable interest rate of the promissory note. This agreement requires fixed rate payments of 4.55% on an initial notional amount of \$2,894,694. The agreement expires on October 1, 2016, covering the life of the note. The agreement is recorded at fair value, which was a liability of \$48,215 at August 31, 2014. The swap is revalued each year and the change in value is reported in the statement of activities as unrealized gain (loss) on swap contract.

#### 7. Employee Benefit Plan

NOVA maintains a SIMPLE retirement plan which covers all full-time employees. Total retirement plan expense for the fiscal year 2014 was \$18,353.

## 8. Commitments

NOVA leases 2.2 acres of land located in Henrico County, Virginia under an operating lease agreement that expires in 2020 with available renewal options for an additional twenty-five years. The monthly lease payments are \$2,058 for base years 1 through 5; \$2,445 for base years 6 through 10; \$2,905 for base years 11 through 15; \$3,451 for base years 16 through 20; and \$4,100 for base years 21 through 25.

NOVA also leases an adjoining 4.323 acres of land under an operating lease that expires in 2030 with available renewal options for an additional twenty-five years. The monthly lease payment is \$2,882 for the entire initial term.

Both leases require that NOVA pay the associated real estate taxes. Rent expense under these leases for fiscal year 2014 was \$75,996.

Future minimum rental payments for subsequent years ending August 31 are as follows:

|            |    |                |
|------------|----|----------------|
| 2015       | \$ | 75,996         |
| 2016       |    | 81,188         |
| 2017       |    | 83,784         |
| 2018       |    | 83,784         |
| 2019       |    | 83,784         |
| Thereafter |    | <u>446,024</u> |
|            | \$ | <u>854,560</u> |

Subsequent to August 31, 2014, NOVA entered into contracts for a new 50-meter pool and facility expansion and HVAC replacement. The estimated cost of the pool and facility expansion is approximately \$6,750,000; a substantial completion date is to be determined as the project progresses. The estimated cost of the HVAC replacement is approximately \$290,000 with substantial completion by September 2015.

## 9. Functional Classification of Expenses

Functional classification of expenses is as follows for the year ended August 31, 2014:

|                        |    |                  |
|------------------------|----|------------------|
| Program services       | \$ | 1,998,397        |
| Management and general |    | 198,948          |
| Fundraising            |    | <u>12,787</u>    |
|                        | \$ | <u>2,210,132</u> |

## 10. Prior Period Adjustments

Previously issued financial statements as of and for the year ended August 31, 2013 included accounts receivable and revenues for dues and registration fees that related to the year ended August 31, 2014. The 2013 financial statements also overstated revenue which should have been deferred for dues received during 2013 that were for 2014. The cumulative effect of these errors caused accounts receivable to be overstated by \$72,750 and deferred revenues to be understated by \$30,463 at August 31, 2013 and increase in net assets to be overstated by \$103,213 for the year ended August 31, 2013.
